O.:A.:I.: Petition for Membership & Self-Initiation

Please re-read the O.:A.:I.: Membership information prerequisites & the public information of the Order at the O.:A.:I.: Internet site.

Initiation is the means of Self-reformation where men and women are strewn asunder into the endless Sea. The Path of Initiation arrogates strength & skill of Will, occult initiation is a dire ordeal of the deathless soul as the initiate is often bewitched by the devouring Dragon of Choronzon in the Veils of the bloody Abyss. The root of the word itself stems the Latin noun *initium*, which literally means 'beginning'; 'a commencement anew'. Thus initiation means the beginning of a new perception and attitude toward life, death, and rebirth. Moreover, it is the entry into entirely new archetypes of existence. Initiation means, above all, spiritual maturity and reformation -- a definite mark in the epoch of human spiritual history.

Self-Initiation is a Secret Sacrament of Illumination; it is the reformation of one's Sovereign Soul or True Self in accordance with the archetypal forces which burn the psyche in the agony of ecstasy, and the means of realizing one's True Will, or Genius. Self-Initiation is the Mystery of Iniquity, whereby WoMan formulates anew hir expression of the interior and exterior Multiverse. Governed by the Light of Illuminism, Self-Initiation is the key to Religious Science, the lost Mysteries of Iniquity, and the entry into mastery.

Petitions for individuals under the age of eighteen will not be accepted. Fratres and Sorores of the Order receive complimentary Chronicles (Official Journals of the O.:A.:I.:) and Magickal Lessons in the Western Mystery Tradition designed to instruct men and women in the design of Illuminism. Documents of the Order (Chronicles, Magickal Lessons, and Oaths) are disbursed free of charge throughout the internet to Initiates whom are able to download electronic mail documents in MS Word format. Order Documents will disburse via U.S. Postal Mail to those whom desire to receive them by this method.
